

KHPA 2009 Annual Legislative Report

Appendix A

Health Policy Agenda and Recommendations

As Approved by the KHPA Board, November 17, 2009

KHPA's 2010 Coordinated Health Policy Agenda

Approved by KHPA Board November 17, 2009

<u>Vision</u>	<u>Access to care:</u> Every Kansan should have access to patient-centered health care and public health services ensuring the right care, at the right place, and the right price. Health promotion and disease prevention should be integrated directly into these services.	<u>Quality and Efficiency in Health Care:</u> The delivery of care in Kansas should emphasize positive outcomes, safety and efficiency and be based on best practices and evidence-based medicine.	<u>Affordable and Sustainable Health Care:</u> The financing of health care and health promotion in Kansas should be equitable, seamless, and sustainable for consumers, providers, purchasers and government.	<u>Promoting Health and Wellness:</u> Kansans should pursue healthy lifestyles with a focus on wellness—to include physical activity, proper nutrition, and refraining from tobacco use—as well as a focus on the informed use of health services over their life course.	<u>Stewardship:</u> The Kansas Health Policy Authority will administer the resources entrusted to us by the citizens and the State of Kansas with the highest level of integrity, responsibility and transparency.	<u>Education and Engagement of the Public:</u> Kansans should be educated about health and health care delivery to encourage public engagement in developing an improved health system for all.
<u>Accomplishments</u>	Presumptive Medical Disability Determination (PMDT)	SEHP web-based enrollment	Additional plan options in SEHP	Identified gaps in prevention through Medicaid transformation grant	SEHP fund management	Advisory Councils
	Expanded participation in SEHP by non-state groups	E-prescribing in SEHP	Lowered SSIF long term liabilities	Wellness Programs for SEHP plan members	Audit and Deferral Resolution	Mental Health Prescription Drug Advisory Committee
	Working Healthy programs to promote independence for persons with disabilities	Implemented severity adjusted payments in Medicaid and non-payment of never events in MCD			Risk-based rates for Work Comp	Participation in Legislative and Board of Regents Wichita Graduate Medical Education (WCGME) task forces
	Increased provider payments funded by provider assessment.	Created Mental Health Prescription Drug Advisory Committee			Agency-wide imaging	Medical Home Stakeholders
	Payment reforms: Disproportionate Share Hospitals (DSH) and Critical Access Hospitals (CAH)	Community Health Record (CHR) pilot projects			Electronic processing and medical case management in SSIF	Health Information Technology/Exchange (HIT/HIE)

		Develop Medical Home implementation plan				

KHPA's 2010 Coordinated Health Policy Agenda

<u>Vision</u>	<u>Access to care:</u> Every Kansan should have access to patient-centered health care and public health services ensuring the right care, at the right place, and the right price. Health promotion and disease prevention should be integrated directly into these services.	<u>Quality and Efficiency in Health Care:</u> The delivery of care in Kansas should emphasize positive outcomes, safety and efficiency and be based on best practices and evidence-based medicine.	<u>Affordable and Sustainable Health Care:</u> The financing of health care and health promotion in Kansas should be equitable, seamless, and sustainable for consumers, providers, purchasers and government.	<u>Promoting Health and Wellness:</u> Kansans should pursue healthy lifestyles with a focus on wellness—to include physical activity, proper nutrition, and refraining from tobacco use—as well as a focus on the informed use of health services over their life course.	<u>Stewardship:</u> The Kansas Health Policy Authority will administer the resources entrusted to us by the citizens and the State of Kansas with the highest level of integrity, responsibility and transparency.	<u>Education and Engagement of the Public:</u> Kansans should be educated about health and health care delivery to encourage public engagement in developing an improved health system for all.
<u>Recommendations</u>	No recommendations at this time: expansions are inconsistent with the budget situation and would duplicate federal reform efforts	Engage in management of mental health pharmacy program	Professional rate leveling	Enact a statewide Clean Indoor Air law	Prepare options to meet budget targets	
		Streamline prior authorization	Promote workforce planning and policies to assure an adequate health care workforce in Kansas, e.g., policies to ensure success of the graduate medical education program in Wichita	Enact regulations on vending machines in schools to require healthy food options	Reduce spending by promoting health improvement through sound policies that prevent the onset of chronic disease	
				Expansion of early detection program of breast and cervical, colorectal and prostate cancer	Positioning the state for possible federal health reform	
				Increase funding for Kansas Coordinated School Health (KCSH) Program	Increase tobacco user fees to reduce smoking rates	

KHPA's 2010 Coordinated Health Policy Agenda

<u>Vision</u>	<u>Access to care:</u> Every Kansan should have access to patient-centered health care and public health services ensuring the right care, at the right place, and the right price. Health promotion and disease prevention should be integrated directly into these services.	-	<u>Quality and Efficiency in Health Care:</u> The delivery of care in Kansas should emphasize positive outcomes, safety and efficiency and be based on best practices and evidence-based medicine.	-	<u>Affordable and Sustainable Health Care:</u> The financing of health care and health promotion in Kansas should be equitable, seamless, and sustainable for consumers, providers, purchasers and government.	-	<u>Promoting Health and Wellness:</u> Kansans should pursue healthy lifestyles with a focus on wellness—to include physical activity, proper nutrition, and refraining from tobacco use—as well as a focus on the informed use of health services over their life course.	-	<u>Stewardship:</u> The Kansas Health Policy Authority will administer the resources entrusted to us by the citizens and the State of Kansas with the highest level of integrity, responsibility and transparency.	-	<u>Education and Engagement of the Public:</u> Kansans should be educated about health and health care delivery to encourage public engagement in developing an improved health system for all.
<u>Long Range Goals</u>	Explore options for insurance coverage for school district employees		Achieve meaningful use of HIE and HIT among providers serving MCD and the uninsured				Reduce tobacco use		Align payment methodologies with best practices in Medicare or other benchmarks		Constructive relationship with policy makers
			Achieve coordinated management for improved outcomes in disabled and aged populations				Reduce rates of obesity and overweight in Kansas		Develop the capacity of KHPA's workforce through promotion, training, teamwork, and recruitment		KHPA will be a consistent source of facts, insight, ideas, and sound advice
							Improve screening and preventive treatment
